To Whom It May Concern:

I am the CEO of Hollister Construction Services, a full service construction company. I started my business 5 years ago, and realized the need for a graphic designer to assist me with creating marketing materials. I hired Orange Velvet Design Studio to do just that.

Melanie Unice has provided excellent service and quality products for Hollister Construction. Melanie developed and launched our company's website, and continues to make any necessary updates to the website. Melanie is also responsible for creating our monthly mailers and e-blasts, sales brochures, construction qualification books, invitations, etc. Not only does Melanie design these for us, she also suggests innovative marketing ideas to improve the pieces.

I have had many project schedules with tight deadlines and Melanie has always been accessible and reliable. Melanie has proven herself time and time again. She is a true professional.

I enjoy working with Melanie and Orange Velvet Design Studio, and would highly recommend her services.

Sincerely,

Hollister Construction Services
